

Spa 7 Products...

SkinMedica® – Spa 7 has chosen SkinMedica® as one of its skin-care product lines, due to the products' dramatic enhancement of skin appearance and reduction of aging signs, among other restorative benefits. Only available through physicians, SkinMedica's professional-strength skin care products are the result of over a decade of research and clinical use. They have been refined over the years to satisfy your need for elegant formulations that are easy to use and fulfill the requirements of your specific needs.

Obagi® – Obagi® Medical Products has developed prescription-strength skin health systems focused on preventing and/or improving skin conditions including photodamage, hyperpigmentation (chloasma, melasma, and freckles), acne, vulgaris and rosacea.

The Obagi® Nu-Derm System consists of topical products, which when used as a system, result in substantial improvement to these skin related conditions. With the launch of Obagi-C Rx System, the first and only prescription strength Vitamin C and hydroquinone System, Obagi® has been a huge success with both patients and physicians.

Latisse™—Spa 7 is proud to make available the first and only FDA-approved prescription treatment to help eyelashes grow longer, fuller and darker. Latisse™ works from the inside out. As the treatment progresses through 16 weeks, you and everyone else will gradually see the desired effects.

The Spa 7 Experience...

Spa 7 Cosmetic & Laser Center is a personalized medical spa serving you 7 days a week.

Our highly trained team is dedicated to ensuring superior client care by combining medical expertise, the latest technology, a luxurious experience, and personal attention to detail.

Services...

Non-Laser Procedures

BOTOX® Cosmetic Wrinkle & Fine Line Treatments **\$12/Unit**

Botox™ reduces moderate to severe lines between the brows, crow's feet and forehead area, and can prevent new wrinkles from forming. Now you truly have a choice when it comes to quick-acting medical treatments, helping you look up to 10 years younger.

Fillers

Fillers are a great solution if you are looking for a nonsurgical solution for wrinkles, folds or thin lips that takes less than an hour and lasts 6-12 months or more. We use numbing creams and dental blocks for all of our injectables so that you will have almost no discomfort during the procedure. The treatments are fast, safe, effective and offer long term results helping to reduce the signs of aging.

Restylane™, Perlane™, and Juvederm™ **\$500/Syringe**

Hyaluronic acid is a naturally occurring substance in your skin, that gives us fullness and elasticity. Over time, we lose it. A smooth consistency gel, these fillers are made up of hyaluronic acid. They are the perfect wrinkle solution for people who want to reduce the signs of aging without the potential risks associated with invasive cosmetic surgery. They are long lasting, natural and safe, and offer immediate results with no downtime. They quickly and effectively fill in and correct fine lines and wrinkles, shape facial contours, and restore lips to their original fullness or add volume. The results are instantaneous and produce a long lasting natural enhancement.

Radiesse® **\$700/Syringe**

Radiesse® is a safe, dermal filler that does more than just fill in lines and wrinkles – it volumizes. This treatment restores a natural, youthful look and will last for a year or more. Radiesse is a safe and effective treatment for filling and correcting smile lines, nasolabial folds, and wrinkles around the nose and mouth, stimulating the body to produce new collagen. This unique response provides immediate, visible improvement of folds and wrinkles, and provides long-lasting and beautiful results.

Medical Grade Chemical Peels **\$200**

Let us recommend a customized chemical peel to treat fine lines, hyperpigmentation, sun damage, texture irregularities, keratinization, acne, and problems with firmness, elasticity, and skin tone. Results start in 1-2 treatments.

Laser Procedures

Fractional Skin Rejuvenation **\$600**

Fractional resurfacing offers dramatic results without surgery. It is quick and easy, with little downtime. Years of sun damage, acne scars, enlarged pores, and environmental damage are eliminated along with fine lines and wrinkles.

Skin/Photo Rejuvenation /IPL **\$395**

Turn back the signs of aging and sun damage. This quick 20 minute procedure will help to eliminate brown spots, capillaries, give you a more even skin color, and smoother, rejuvenated skin.

Skin Tightening **\$450**

This quick and painless "lunchtime procedure" is ideal for treating jowl and neck laxity, sagging under the eyes, droopy brow lines, and grooves around the mouth.

Hair Removal

Our breakthrough technology features the Soprano^{XL} Laser, one of the most comfortable and quick laser hair removal options available.
